

Plasmid DNA mini Prep Kit

Features

- *Fast procedure*
- *High yield*
- *High purity*
- *Very cost effective*

Catalog No.	Preps	Price (US\$)	\$/prep
MB002-50	50	45.00	0.90
MB002-100	100	80.00	0.80
MB002-250	250	160.00	0.64

Example

Mini prep. of 11kb plasmid DNA

M: 1kb DNA ladder

G: GeneTel's kit

Q: Vendor Q kit

How to place an order

Oder by PO number: email your PO number with the catalog No. and quantity information to info@genetel-lab.com

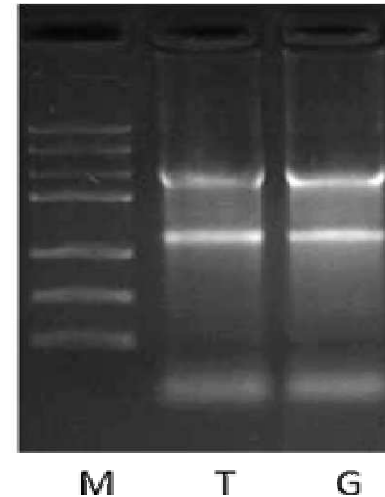

GeneTzol RNA Reagent

- **Features**

- *For various types of biological samples*
- *High yield, High purity*
- *RNA prepared can be directly used in downstream manipulations, such as qRT-PCR, Northern Blot, cDNA library construction, etc.*
- *Very cost effective*

Catalog No.	Volume	Price (US\$)	\$/prep
MB003-50	50ml	50.00	1.00

- **Example**

Total RNA extracted from 293 cells

50ul elutant
10ul loading

T: TRizol

G: GeneTzol

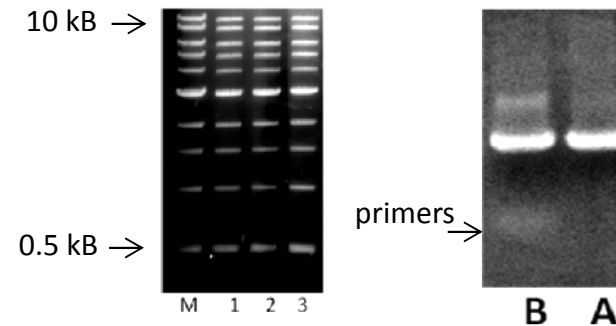

DNA Gel Extraction / PCR Clean Up Kit

- Features

- **One kit for two applications**
- **Up to 350mg of 2% gel in one loading**
- **Faster gel dissolving**
- **Up to 95% yield**
- **High purity**
- **Very cost effective**

Catalog No.	Preps	Price (US\$)	\$/prep
MB001-50	50	40.00	0.80
MB001-100	100	65.00	0.65
MB001-250	250	140.00	0.56

- Examples

Left : Recovery of DNA ladder from agarose gel
M: 1kb ladder before recovery;
1,2,3: three independent recoveries

Right : PCR product (1kb) clean up
B: PCR product before clean-up
A: PCR product after clean-up

How to place an order

Oder by PO number: email your PO number with the catalog No. and quantity information to info@genetel-lab.com
